Russell is probably the best of the trio at the distance, and he will be better off than ever before this Spring by having Fitzpatrick on his back. The writer expects to see him win. Pessara, with Tarai up, will undoubtedly be hunting him close at the end. The most disastrous fire that his visited Williamsburg for years broke out in the 8. Remson Manufacturing Co. at 742-750 morning. Inside of two hours, notwithstand ing the efforts of the fire department, \$200, 000 worth of property went up in smoke.

The first alarm was sent in at 2.15 A. M. and brought to the scene Chief Perry and Engines 13, 16 and 24. Chief Perry saw at a giance that only the most prompt action could save the block between Graham avenue and Ewen streets. A second and a third slarm were quickly sent in, which brought Engines 11, 12, 21, 30, 18 and 17 to the spot, In less than ten miautes the building occu pied by the Remson Carriage Manufacturing Company was one mass of flame. The heavy gale blowing from the South carried the flames clear across carried the flames clear across Grand street to the buildings on the north side of the way. It was plain that nothing could save Remson's building, and the firemen were directed toward saving the

tenements across the street. A special call was sent in, and two more engines and three book and ladder trucks re-

By this time the building where the fire began, together with the 800 vehicles stored there, was almost wholly consumed. The buildings on esther side had caught and the tenants were scrambling to the street for their lives. The heat was no intense that it was almost impossible

for the firemen to work to advantage, and the upper stories of the houses on the north adds of Grand street from 743 to 753 seemed to be Nos. 738, 736, 734 and 732, at the west of Nos. 738, 736, 734 and 732, at the west of the Hemson building, caught in the order named and Nos. 752, 754 and 756, to the east, were in flames a few minutes later. For a time t looked as if the entire block from Graham avenue to Hewes street would have to go. Quick work by the firemen under Chief Perry, averted this and the neighboring residents are foud in praise of the work done by the firemen.

The street, which up to this time had been crowded by the inmattes of the burning tenements, who had had to lower their quarte a too an dealy to dress was cleared sufficiently to allow the workers to get at the flames, and by 3.30 o'diock the fire was unser control.

So far as can be learned, there are no missing people, although some of the excapes were very thrilling.

The aged mother of Mrs. Mary A. Healy who kept a boarding-house at No. 745, directly opposite Remson's building, war escued with great difficulty, and taken fa an ambulance to St. Calherine's Hospital, where she lies in a critical condition, resulting from the exposure and existence.

After the fire was under control Cal Nevin complimented the firemen on the After the fire was under control to Nevin complimented the firemen on their work. Chief Perry told an Evening West-reporter that it was the hottest fire he had ever worked at barring come.
